"An Equal Opportunity Institution"

Some Classic Quotations About Libraries

"Libraries are not made; they grow." Augustine Birrell (1850-1933)

"Healing-place of the Soul." Anonymous inscription on the library at Thebes

The library is not merely a collection of books, or a storehouse, but an aggressive and active source of education. - John Cotton Dana

The library is the center of historical book preservation . . . It is the core of the information revolution energizing our country. As such, it embodies the ideals of the experiment called America where society is based on ability, merit and the democratic ideal that is *what* you know, not whom. - Frederic Alan Maxwell

Libraries are the best consolations, retreats, harbours, refuges of the soul of man. - Holbrook Jackson

Libraries are the concert halls of the finest voices gathered from all times and places. - J. P. Richter

Consider what you have in the smallest chosen library. A company of the wisest and wittiest men that could be picked out of all civil countries, in a thousand years, have set in the best order the results of their learning and wisdom. - Ralph Waldo Emerson

A great library contains the diary of the human race. - Rev. George Dawson

It seems as though all the souls of all the writers. . . were reposing there, as in some dormitory or middle state. - Charles Lamb

The school can compel to knowledge; the library must allure to knowledge. - John Cotton Dana

A city without a library is a desert. - Augustine Birrell

Never lend books, for no one ever returns them; the only books I have in my library are books that other folk have lent me. - Anatole France

There are seventy million books in American libraries, but the one you want to read is always out. - Tom Masson

Choose an author as you choose a friend. - Earl of Roscommon

FHLC is the Family History Library Catalog and is in 4 parts. 1. Locality. 2. Surname. 3. Author/title of books. and 4. Subject. Be sure to check all of the catalogs when doing research. There are books in fiche, 200 of the most used books according to Salt Lake. The IGI and this catalog are available to individuals and libraries and not just Mormons. Family search on computers is the way of the future for the Mormon Church. The IGI on computer includes Canada as well.

ANCESTRAL FILE. This is the new program that is replacing the Family Registry. We now have the 2nd edition. You can pull up descendancy charts, family group sheets, pedigree charts, and the Church is doing a pre-1500 pedigree called the Medieval Unit and doing all the verification as well. This will be on CD-Rom soon.

SOCIAL SECURITY DEATH INDEX is on the computer and includes Korean and Vietnam war deaths, giving the exact date of death, state applied from, unit served in and actual place of death. The World War II index will be out shortly. This program tells how many people died under that surname in the country, and where they applied for social security.

PAF. the computer program is sold for \$35 and a bargain. You can come in and do your family genealogy on the computer and either send it to Salt Lake or take it home as you wish. We encourage sending it to Salt Lake so others will have access to it.

MISCELLANEOUS - FHC has genealogical word lists for various languages: German, French, Italian, Dutch, Norwegian, Swedish, Latin. Research outlines are available to date for every state except New York. The entire collection sells for \$10.00. **PERSI** lists all articles printed in Journals, by surname and subject. We have various other research guides for sale, i.e. a book on England is \$1.00, 52 pages, and touches on Scotland and Ireland as well. These are wonderful handy reference guides. Most of these programs are available at every Family History Center. We do not have interlibrary loan now but it is possible in the future. Libraries can purchase these programs. The IGI is reprinted every 4 years.

over again to prove if its right or wrong. We have the New England Register, 1847 - date and they are coming out with a new index which we will get when available; and the Genealogical Periodical Annual Index. We have some city directories of the local municipalities, the earliest from West Palm Beach is 1920. We do not have every year but have most through 1985. The city library has a large collection and if we need something from one we do not have to go upstairs.

CEMETERY RECORDS. WE are preparing cemetery records which we expect to publish, doing first those owned by the municipalities. We hope to do all cemeteries in Palm Beach County but it is a very slow tedious project as we go to the City Hall to do this work.

BIBLIOGRAPHY We are putting the bibliography of our holdings on the computer and hope to have that ready for publication by the end of the year.

COMPUTERS. We have two computers, one in the office for our use only and one for public use with PAF and Roots III. People can bring their own disc or can purchase one from us and do their work in the library.

We do not have a newspaper collection. The city library has the Palm Beach Post from 1924 on film so we use that source. We can order microfilm from the AGLL which can be kept for 4 weeks and then returned or can be purchased. Our collection does not circulate. All items such as purses, large notebooks, cases, etc. must be stored in a locker outside the door to the library. We do all photocopying, not the patron because of the damage to the books. We have a variety of charts for sale for the convenience of our patrons but are not really in the business of selling things.
